

## MyMedicare CONSENT FORM

Hurstville Highpoint Medical Centre is now open to enrol a patient to MyMedicare. What is MyMedicare? It is a new voluntary patient registration (VPR) model implemented by the Commonwealth Government which is designed to formalise and strengthen the relationship between patients and their GPs and primary care teams to improve continuity of care and patient experience.

Patients can benefit from this by registering and nominating their preferred GP; Patients will have access to greater continuity of care with their registered practice, improving health outcomes; and Patients will be able to access longer MBS-rebated telephone calls with their usual general practice.

I have read the information above and understand the purpose of MyMedicare. I understand the MyMedicare registration is completely voluntary
